Well gentlemen, I never in my life thought undefeated and lost Bandits would be in the same sentence but yes its true. The lost Bandits are winners in a higher division than they have been. Thank you so much for being part of the team. I am honored to be part of the experience. Special thanks to Roger for the trophies and for his career performance. Dominic I really enjoyed having you on my line and I appreciate everything you did to help out. Please pass this on to Brian and Brent or send me their email address so I can add them to 2023 Bandits list. Gary get well soon. Missed you today. I hope everyone had as much fun as I did.

Thanks again for a great weekend
